

## **Republican Plan Will Replace Medicare Guarantee with a Voucher and Force Wyoming Seniors to Pay More for Health Care**

*The Republican budget again replaces Medicare’s guaranteed benefits with a voucher that will stick them with higher health care costs. For the fourth budget in a row, Republicans have made it clear that they would rather rely on seniors to shoulder the burden of deficit reduction than close even one tax loophole that benefits wealthy special interests. The consequences for seniors are devastating.*

**83,577 Wyoming seniors would be forced out of traditional Medicare and into a voucher program.** Under the Republican plan to replace Medicare’s guaranteed benefits, all Wyoming seniors will receive a voucher instead of guaranteed benefits under traditional Medicare beginning in 2024. The 84,000 Wyomingites aged 45-54 at the time of the most recent Census, would see their premiums for traditional Medicare increase by 50% on average and would have to pay \$800 more for their care than under current law to stay in the program. Seniors who want to keep traditional Medicare, with its guaranteed benefits and extensive physician networks, would also pay \$1,200 more than healthier seniors recruited for private insurance companies’ plans. The Republican plan would drive away more healthy beneficiaries from traditional Medicare, setting off a premium spiral that could cause Medicare – currently the lifeline for 84,076 Wyoming seniors – to “wither on the vine.” [House Republican Budget, [3/12/13](#); CBO, [9/18/13](#); Census, accessed on [4/1/14](#); KFF, accessed on [4/1/14](#)]

**6,150 Wyoming seniors would pay more for prescription drugs next year.** The Republican plan would re-open the “donut hole,” forcing seniors to pay the full cost of their prescription drugs if their yearly drug expenses are more than \$2,850 for the year. As a result, more than 6,150 Wyoming seniors reaching the prescription drug “donut hole” would pay an average of \$941 more in prescription drug costs in 2015 and approximately \$11,918 more between now and 2022 than under current law. **54,686 Wyoming seniors would be forced to pay for preventive health services.** By repealing health reform, the Republican plan will require that the 54,686 Wyoming seniors who utilized free preventive services currently covered by Medicare in 2013, be required to pay deductibles, co-insurance, and copayments for certain services, including cancer screenings and annual wellness visits. [HHS, [3/21/14](#); CMS, [2/17/13](#)]

**Republican budget slashes \$0.61 billion in health care for Wyoming seniors, reducing access to nursing home care.** The Republican budget slashes \$0.61 billion in nursing home care and other health care services for seniors and the disabled. More than 15,584 Wyoming seniors and disabled currently rely on Medicaid for their long-term care needs. The draconian cuts included in the Republican budget could have a devastating impact on the 38 certified nursing homes in Wyoming that serve 2,395 seniors and disabled, with more than half relying on Medicaid as their primary payer. As a result, nursing homes would be forced to slash services, turn away seniors, or close their doors.
