

## Republican Budget Would Be Devastating for Utah Women

*Senate Democrats are working to provide a fair shot for everyone to succeed by creating good paying jobs and opportunity for working women. Instead of protecting programs critical to women across the country, Republicans have again introduced a budget that would take an enormous toll on women by cutting the services they rely on for their health and the health of their children.<sup>1</sup>*

**1,728 fewer Utah women could be screened for cancer.** The Republican budget would cut funding for the National Breast and Cervical Cancer Early Detection Program, which helps low-income, uninsured, or underinsured women gain access to diagnostic services like clinical breast examinations, mammograms, pap tests, and pelvic examinations. The deep cuts in the Republican budget could result in Utah receiving \$435,306 less funding. **11,725 fewer children could receive life-saving vaccinations.** Grants for childhood immunizations help to purchase and distribute vaccines for poor and uninsured children. The Republican budget could cut \$800,981 in funding for life-saving vaccinations in Utah. **Reproductive health programs in Utah could be cut by \$325,023.** The Republican budget could cut \$325,023 in services funding for the Title X family planning program in Utah, which provided access to contraceptives supplies, reproductive health information and counseling, breast and pelvic examinations, breast and cervical cancer screening, STD and HIV prevention education, and pregnancy counseling to 36,076 women in 2012 alone. **Over 387,000 women in Utah will lose access to health benefits.** The Republican budget repeals the Affordable Care Act, eliminating health insurance coverage and new benefits for millions of Americans and jeopardizing their access to stable, secure, affordable care. 387,000 women and 411,000 children in Utah would have a lifetime limit on their coverage under the Republican budget. <sup>1</sup> Reductions to discretionary programs are determined by calculating the percentage reduction from the non-defense budget authority provided under the Budget Control Act for FY16 before sequestration to the budget authority provided under the House Republican Budget in FY16, and applying that reduction (15 percent) to the most recent programmatic levels to illustrate potential differences.

maternal and child health services, including prenatal care, well-child services, and other services through clinics, home visits, and school-based health programs. The Republican budget could cut \$1,044,261 million in funding from Utah, resulting in 35,005 fewer women and children served. **1,464 fewer victims of domestic violence could be served through the STOP Violence Against Women Program.** Funding for the STOP Violence Against Women Program helps states provide support services for victims of domestic violence. The Republican budget could cut \$215,086 in funding from Utah, resulting in 1,464 fewer women and children served. Additionally, the Republican budget could cut \$39,324 in funding to Utah, for the Sexual Assault Services program, which is dedicated to assisting victims of sexual assault through rape crisis centers and other programs. At the same time, because the Republican budget repeals the Affordable Care Act, insurance companies will again be able to say that being a victim of domestic violence or sexual assault is a “pre-existing condition” that will force women to pay more for their health insurance. **Millions more women will have to pay more for contraceptive coverage.** The Republican Budget repeals the Affordable Care Act, which requires that insurance plans provide coverage without cost sharing for a variety of preventive health services, including cervical cancer and breast cancer screenings as well as contraceptive drugs. In 2013, more than 24 million more contraceptive prescriptions were filled without a co-pay than the previous year, resulting in savings to women throughout the country of more than \$483 million.
