

Republican Plan Puts Special Interests Ahead of Wyoming Seniors Health Care

The Republican budget would rig the rules in favor of special interests and against millions of seniors who worked hard to earn Medicare benefits. For the fifth budget in a row, Republicans have chosen tax breaks for millionaires and big corporations instead of preserving the Medicare guarantee. Rather than take on special interests, the Republican budget sticks seniors with a higher health care bill.

7,882 Wyoming seniors would pay more for prescription drugs next year. The Republican plan would re-open the “donut hole,” forcing seniors to pay the full cost of their prescription drugs if their yearly drug expenses are more than \$2,960 for the year. Under the Republican plan, more than 7,882 Wyoming seniors reaching the prescription drug “donut hole” would pay an average of \$847 more in prescription drug costs in 2015 and approximately \$11,139 more between now and 2022 than under current law. [Senate Republican Budget, 3/18/15; HHS, [2/24/15](#); [2/24/15](#)]

55,024 Wyoming seniors would be forced to pay for preventative health services. By repealing health reform, the Republican plan will require that the 55,024 Wyoming seniors who utilize free preventative services currently covered by Medicare in 2013, be required to pay deductibles, co-insurance, and copayments for certain services, including cancer screenings and annual wellness visits. [Senate Republican Budget, 3/18/15; HHS, [2/24/15](#); [2/24/15](#)]

Republican budget slashes \$0.4 billion in health care for Wyoming seniors, cutting nursing home care. The Republicans budget slashes \$0.4 billion in nursing home care and other health care services for seniors and the disabled. Over 15,900 Wyoming seniors and disabled currently rely on Medicaid for their long-term care needs. The draconian cuts included in the Republican budget could have a devastating impact on the 39 certified nursing homes in Wyoming that serve 2,387 seniors and disabled individuals, with more than half relying on Medicaid as their primary payer. As a result, nursing homes would be forced to slash services, turn away seniors, or close their doors. [Senate Republican Budget, 3/18/15; Wall Street Journal, [3/18/15](#); CBO, [3/20/12](#); Kaiser Family Foundation, [accessed 3/17/15](#)]

Under the House Republican Budget, 83,577 Wyoming seniors would be forced out of traditional Medicare and into a voucher program. Under the House Republican plan to end Medicare as we know it, all Wyoming seniors will receive a voucher instead of guaranteed benefits under traditional Medicare beginning in 2024. For the 83,577 Wyomingites aged 45-54 at the time of the most recent Census, the value of their vouchers would be capped at growth levels that are lower than the projected increases in health care costs. Private insurance plans will aggressively pursue the healthiest, least expensive enrollees, thereby allowing Medicare – currently the lifeline for 84,076 Wyoming seniors – to “wither on the vine.” [House Budget committee, [3/17/15](#); Census, [accessed on 3/15/15](#); New York Times, [7/20/96](#); HHS, [3/10/15](#)]
