

## Republican Budget Would Be Devastating for North Dakota Women

*Senate Democrats have introduced a budget that cuts wasteful spending, invests in what the economy needs to grow, and protects programs critical to women across the country. Meanwhile, Republicans have again introduced a budget that would take an enormous toll on the nation's women, cutting the services they rely on for their health and the health of their children.*

**5,944 fewer North Dakota women will be screened for cancer.** The Republican budget would cut funding for the National Breast and Cervical Cancer Early Detection Program, which helps low-income, uninsured, or underinsured women gain access to diagnostic services like clinical breast examinations, mammograms, pap tests, and pelvic examinations. The deep cuts in the Republican budget could result in North Dakota receiving \$1,497,669 less funding. **2,737 fewer children will receive life-saving vaccinations.** Grants for childhood immunizations help to purchase and distribute vaccines for poor and uninsured children. The Republican budget could cut \$187,078 in funding for life-saving vaccinations in North Dakota. **Reproductive health programs in North Dakota could be cut by \$194,229.** The Republican budget could cut \$194,229 in services funding for the Title X family planning program in North Dakota, which provides access to contraceptive supplies, reproductive health information and counseling, breast and pelvic examinations, breast and cervical cancer screening, STD and HIV prevention education, and pregnancy counseling to 11,594 women in 2011 alone. **Over 93,000 women in North Dakota will lose access to health benefits.** The Republican budget repeals the Affordable Care Act, eliminating health insurance coverage and new benefits for millions of Americans and jeopardizing their access to stable, secure, affordable care. 93,000 women and 66,000 children in North Dakota would have a lifetime limit on their coverage under the Republican budget. **23,214 fewer women and children will have access to maternal and child health services in North Dakota.** The Maternal and Child Health Block Grant program helps states provide critical maternal and child health services, including prenatal care, well child services, and other services through clinics, home visits, and school-based health programs. The Republican budget would cut \$0.3 million in funding from North Dakota, resulting in 23,214 fewer women and children served.
